**CENSUS OF NEWFOUNDLAND, 1945**

---

Gainfully Occupied  
Classified According to Occupation and Industry,  
By Industrial Status and Sex,  
For Newfoundland and Census Districts

---

Report No.  
ON-1  
Price ~~10~~ cents

PREFACE

Newfoundland took a census of its population as at October 1, 1945. The information from the Population Schedule was punched on cards which were later forwarded, at the request of Newfoundland, to the Dominion Bureau of Statistics for tabulation. This bulletin gives final figures for the gainfully occupied population, 14 years of age and over, as reported at the census date, October 1, 1945, for Newfoundland and census districts.

The gainfully occupied, for Newfoundland, are classified according to occupation, by industrial status and sex, in Table 1 and according to industry, by industrial status and sex, in Table 2. Data for census districts are given in Tables 3 and 4 which show the gainfully occupied classified according to occupation groups and industry groups, respectively, by industrial status and sex.

*Herbert Marshall*

Dominion Statistician.

April 5th, 1949.

## DEFINITIONS AND EXPLANATIONS OF TERMS

Gainfully occupied: A gainfully occupied person, for census purposes, is one who owns and/or operates a farm, mine, fishing gear, or other business, such as a store, repair shop, restaurant, etc., or is engaged in a trade or profession, such as a carpenter, plumber, doctor, dentist, lawyer, etc., with or without paid assistance as well as one who is employed by others on a wage, salary, commission, piece rate, or no pay basis. A person who has been employed or engaged in the manner outlined above is considered as gainfully occupied even though unemployed for some period prior to the census date providing he (she) intends to seek gainful employment subsequent to that date. Children not attending school and employed most of the time at some occupation or who regularly assist parents in the operation of a farm, store, etc., with or without pay are also considered as gainfully occupied. However, children working at home merely on general household duties or chores or at odd times at other work as well as women doing housework in their own homes without salary or wages are not considered as gainfully occupied.

Occupational versus Industrial Classification:- The gainfully occupied are classified by occupation and industry in the tables of this bulletin. The group titles in these tables are similar but the composition of the groups is different. For example, the group, "Manufacturing", in industry tables, includes all persons employed by manufacturing firms, whether engaged in the processes of production, or in the sale or transport of the product, or in clerical or other occupations associated with the industry. On the other hand, in the occupation tables found in this bulletin only such persons as follow so-called "processing" occupations, that is, occupations in which they are directly engaged in the process of manufacture or repair, are included in the group "Manufacturing", and all persons following such occupations are classified in this group, irrespective of whether they were employed by manufacturing firms or by mining, construction, transportation, etc., companies at the time of the Census. Similarly the groups, "Construction", "Transportation", for example, in industry tables include all persons employed in these industries irrespective of the nature of their occupations, while the occupational groups, "Construction", "Transportation", appearing in the occupation tables, comprise only those persons who were following construction trades and transport occupations, respectively, at the census date, regardless of the industries in which they were employed.

It might be mentioned that persons in clerical occupations have been assigned a separate place in the tables, while labourers in other than primary pursuits appear in a residuary group in these tables. Since the term "labourer", so reported, gives no indication of the type of work performed, it cannot be classified under any of the occupation groups shown in the tables. Even a knowledge of the industry in which employed does not supply the necessary information on the type of work performed by a person reported as a labourer, for a labourer in a steel mill, for example, might be working in a construction, transport, etc., type of occupation rather than in an occupation directly concerned with the process of manufacture.

Industrial Status:- The gainfully occupied population is classified in this bulletin according to the manner in which they carried on their business or the manner in which they were employed by others, i.e., whether they were occupied in an employer, own account, wage-earner, or no pay capacity. These terms are defined as follows:

- (a) Employer: An employer is a person who operates his (her) own business and employs others therein. However, a person who manages a business for someone else and in so doing has the authority to hire employees, as well as the person who operates his (her) own business merely with the aid of unpaid help (namely, unpaid family workers), is not an employer.
- (b) Own account: An own account person is one who operates his (her) own business without the assistance of wage or salaried employees. However, he may be aided by unpaid help.
- (c) Wage-earner: A wage-earner is a person who works for an employer on a salary, wage, commission, or piece rate basis.
- (d) No pay: A no pay worker is a gainfully occupied person who receives no specified cash pay. This class includes chiefly family workers on farms, in fishing, and in stores as well as some employees of institutions and religious orders who receive room and board but no specified money for their services.
